A third runway would mean 700 extra planes every day – that’s another 700 reasons to fight Heathrow expansion

Campaign groups in the No 3rd Runway Coalition staged a Red Planes event to highlight these shocking figures. While we believe a 3rd runway is undeliverable, we must ensure our voices are heard so that current residents and future

generations do not suffer any further any further a result of repeated demands for airport expansion.

Our AGM will look at key local issues, including:

- The latest consultation on the proposals that could destroy our villages – how to get more information and respond before it ends on 19 December 2017
- Air pollution – which is damaging our health. Even with two runways, Heathrow is failing to meet legal air pollution limits
- Recent marketing letters sent to some residents regarding compulsory purchase
- Increased traffic generated on local roads.
